An experience for life!

elix.org.gr

Learning a lot of things in a short time.

Friendship and culture school

Working with hands and not the mind, a welcome change

The group life was amazing

Intense work, intense sun, intense company

To live, eat, sleep, play , laugh with different people

elix.org.gr

Make room for new ways to know yourself in a group

To open up I made changes, I accepted cultural differences

You learn to be patient and tolerant, to care

To be in nature, away from books and computers, freedom!

Work can be fun in a group

I learned to do new things with my hands, my body!

Participating means sharing, belonging

Celebrate! end of work today!

Volunteers, our greatest asset!
